

WEST COAST UFOS FOR A NYC BASED UFO INVESTIGATOR

This year I was one of the guest speakers of 9th Annual Bay Area UFO Expo 2007 at San Jose, California. Conference organizer Victoria Jack and a dozen of extremely dedicated volunteers, family members, UFO fans and friends produced another classic over the August 25th-26th weekend.

We were almost 20 speakers, but we also had guest stars such as, Jordan Maxwell, George Noory and John Rhodes. Californian based Ruben Uriarte who recently published “Mexican Roswell” and multi talented, also musician Roberta Perala were our hosts.

Conference started on August 25th at 8:00 am, believe or not, with me. I was the first speaker on the opening morning and I got an amazing friendly and warm welcome from the attendees. Just like all other speakers I had a lecture and a workshop. Bill Birnes, James Gilliland, Dr. Steven Greer, John Lear, Dr. Roger Leir, Lloyd Pye, Jim Sparks and Cyd were some of the prominent speakers.

We shared our options and research on time travel, conspiracies, inner earth, undergrounds cities, the spiritual-paranormal aspect of UFOs and alien visitations. Also OPUS (Organization for Paranormal Understanding and Sport) group was an important part of the two days conference. I personally enjoyed meeting the OPUS founder Les Velez and president June Steiner.

I am sending my all best wishes to Victoria Jack being the builder of this very important UFO conference. As we were saying at the end of the event, all of us we belong to a one, immense family.
